Taking Age from the Old Home

Wiring a house for electricity takes years from its age, in so far as comfort, convenience and appeal are concerned.

There are many houses in Topeka which were built when the finest materials were inexpensive. A little remodeling and electric wiring will bring back their usefulness and charm.

Electricity is the safest and cleanest means of illumination. The touch of a button does, without danger, the work that match and taper used to do.

There is an electrical contractor who will cheerfully give you an estimate on the cost of wiring and installing electric fixtures.

The Topeka Edison Company

Purposely Made
For Every Purpose

IT IS ECONOMY TO USE GOOD PAINT

The cost of applying good and poor paint is equal. But only good paint can meet the test of time and weather. Our paints have met these tests for more than 70 years and we can thoroly recommend it, knowing that you will be a satisfied user.
